

WILDLIFE GENETICS™

SOW WITH US,
HARVEST THE WILD!

402 RED CLOVER

Red clover is an excellent choice for food plots. High yield potential, unmatched forage quality, and superior persistence. Its high protein content and rapid recovery after grazing make it highly attractive to deer. The ability to establish quickly and thrive in a variety of soil conditions ensures a reliable and productive food plot. Available in 25 and 50 lb. bags.

SEEDING RATE:

Sow 15-18 lbs. per acre alone

HALL, NY (585) 526-6391
