SOW WITH US,
HARVEST THE WILD!

DEER BRUNCH SPRING MIX

Our proprietary blend of spring and summer grains for extra protein to sustain deer herd population throughout summer months.

- Perfect for large scale seeding
- Great mix for variable soils
- Nitrogen fixing products to reduce fertility needs
- Best seeded April-May

KEY COMPONENTS:

- Annual mix
- Handles variable soil types
- Designed to create early food plots to hold deer all season long

FORMULA:

Soybeans, Iron & Clay Cowpeas, Sunflower,
Buckwheat, WGF Sorghum

SEEDING RATE:

Sow 50-60 pounds per acre
