SOW WITH US,  
HARVEST THE WILD!

## FORAGE FEVER CHICORY/CLOVER

Perennial mix that does better on good soil. Very aggressive under intense grazing and provides high quality forage and protein.

- Grows well in shaded areas
- Perfect for small isolated food plots
- Can be seeded both fall and spring
- Attracts deer and turkeys all year round
- Produces high value feed all year long

### KEY COMPONENTS:

- Perennial Mix
- High quality forage and protein

### FORMULA:

Wildcat Red Clover, Stamina  
White Clover, Chicory

### SEEDING RATE:

Sow 12 pounds per acre
