

WILDLIFE GENETICS™

SOW WITH US,
HARVEST THE WILD!

ONE SHOT BRASSICA MIX

Annual mix of brassicas that will provide the protein needed for the rut and the nutrients needed for the long winter months. Excellent harvest plot for the late season.

- Perfect fit for open field seeding,
- Not designed for shaded areas
- Best seeded late summer to fall (mid July-late August)
- Designed for feeding during the colder periods of the hunting season
- Stays green under a snow cover

KEY COMPONENTS:

- Annual mix of brassicas
- Excellent harvest plot for late season

FORMULA:

Jackpot Forage Turnip, Vivant Hybrid Brassica, Trophy Rape, Purple Top Turnip

SEEDING RATE:

Sow 5 pounds per acre
