

WILDLIFE GENETICS™

SOW WITH US,
HARVEST THE WILD!

SW 644 Wheat

By creating a food plot, you can ensure deer have access to the food they need to survive. Broadly adapted wheat variety amongst the East Coast that is proven for abundant yields. One of the great things about wheat is that its available in the winter months when other food sources may be scarce. Plant this variety with confidence!

SEEDING RATE:

Sow 90-120 lbs. per acre

HALL, NY (585) 526-6391

MIFFLINBURG, PA (570) 966-3841
