

# WILDLIFE GENETICS™

SOW WITH US,  
HARVEST THE WILD!

## VNS RYE

Cereal rye is easy to plant, drought resistant, cold resistant, can adapt to poor soil conditions such as off balanced pH levels, sandy, solid, and is highly sought after by deer! It's a powerhouse of a plant that makes an excellent choice for food plotting.

- A great late planting option for quick growth

### SEEDING RATE:

Sow 80-120 lbs. per acre

HALL, NY (585) 526-6391

MIFFLINBURG, PA (570) 966-3841
